I Love
Montessori Education
and pass the passion on
training teachers for Nido,
Children's house, School
and Adult Education.

Montessori-Training Courses in
German, English and French

■ For Adult Education

Being an expert in adult and continued education I offer training courses for adult educators. Montessori pedagogy is perfect for working with adults in the field of education.

Looking back to 33 years of international teaching experience in the field of adult education, I have a passion for both small and big people. Being a researcher, psychologist and educator, I look deeper and enjoy focusing on details as well as keeping an overview.

■ Benefit from expertise and experience

Montessori education from the scientific point of view, for toddlers, children, preschoolers, school children, made easy, **practical, relevant** and fun for everybody who wants to learn. My passion is to answer all the questions of my students, to involve them **actively** and include all the aspects of peace education at the same time.

■ Languages

- German
- English
- French
- Any of the three languages plus translator

■ International, intercultural expertise

Austria, Germany, Hungary and China are the main countries where I have taught Montessori pedagogy. Other countries are Nigeria and Kenya.

My students in Vienna are from all over the world too: Philippines, Turkey, various Arabian and African countries, Poland, Bulgaria, Serbia, Bosnia, Russia to mention only a few.
